User Interface

Quicklook

Version 1.1
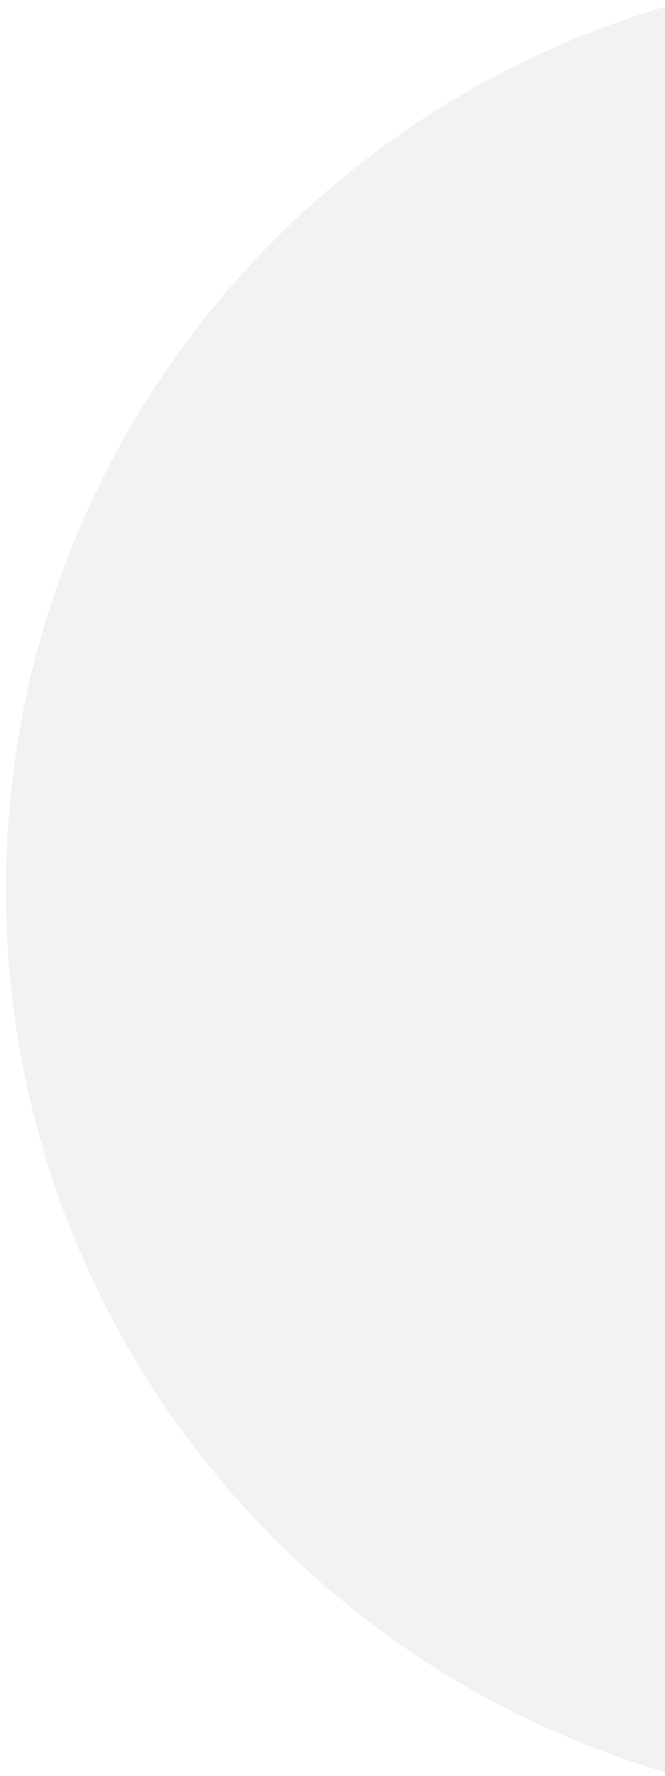

User Interface: Quicklook

The Yadle Desktop App and Web App are nearly identical in regard to their UI. Getting familiar with the interface is key to becoming a Yadle power user. Below is a screenshot of an example search result display. We take a look at some of the important areas of interest.
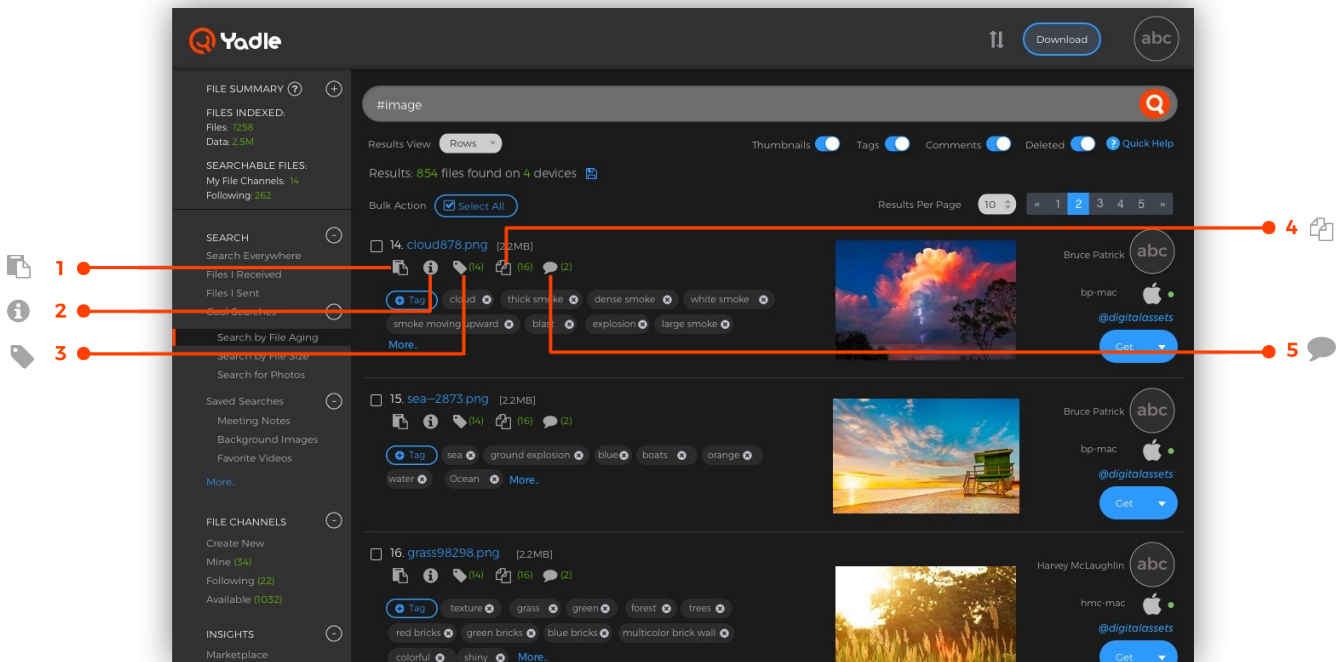

1   **Clipboard Icon:** This will copy the full file path to the clipboard.

2   **Information Icon:** This will take you to the File Details page showing all metadata about a particular file.

3   **Tags Icon:** The number next to this represents how many tags the file has.

4   **Two Documents Icon:** Quickly see how many duplicates of this exact file exist.

5   **Bubble Callout Icon:** The number next to this represents how many comments have been added to this file.
